

# Unlock Team Engagement Workshop

Early Education Leadership is a small coaching and training business that works within the Early Education Sector.

We are inspired to provide new and innovative coaching and training opportunities with a difference. We are passionate about going the extra mile and making a real impact.

## CURIIOUS?

*We are here to assist you on your journey to meet the Revised National Quality Standards and in particular NQS Areas: QA: 4,5,6,7*

## WE GIVE TEAMS PRACTICAL TOOLS TO UNLOCK TEAM ENGAGEMENT IN WAYS THAT HELP THEM TO ELEVATE TRUST!

Your team enjoyed participating in the Engagement Is Key Team Workshop and created a powerful Team Engagement GAME Plan, however they are now struggling to build habits which enable them to embody the learning.

Your team are now ready to focus on their emotional health and design ways they can individually and as a team develop successful habits that they can implement on a daily basis.

The overall objective of this workshop is to strengthen your teams ability to read the 'critter state' signs and symptoms and create ways to respond to the busyness and everyday challenges that early education environments inevitably experience, whilst staying grounded.

As a result of participating in this workshop your team will:-

- **Review** the foundational knowledge gained in the Engagement Is Key Team Workshop
- **Gain** insights into how to read the body and how it communicates with us
- **Co-create a Engagement Road Map Team Response Plan** with built-in habits & rituals
- **Implement** their learning so they can quickly use the knowledge and skills shared in the workshop.

## THE WORKSHOP IS DESIGNED TO BUILD EMOTIONAL HEALTH AWARENESS AND IT'S IMPACT ON THE CHILDREN AND FAMILIES YOU WORK WITH

This six hour workshop provides connection, transformational shifts in thinking, new perspectives and a playful environment to reflect on your practices as individual early education professionals, as well as a whole team.

You will learn to:-

- Look back before looking forward - review what shifts and changes have taken place
- Understand how your body uniquely communicates with you, how it starts moving into a stress response and whole brain state
- Gain knowledge about the impact of emotional contagion and how it impacts the way you work
- Create habits that stick and create positive change in your emotional health
- Create a Team Road Map Response Plan that will enable you to interpret the signs and create sustainable habits and rituals that support you and your team.

This workshop is a sequel to the **Engagement Is Key Team Workshop** and provides a valuable follow on. To find out more details please contact Sarah Moore at [info@earlyeducationleadership.com](mailto:info@earlyeducationleadership.com)

Below are a selection of some of the clients we have worked with.
